Progressive Farmer Index, January 1 to June 30, 1915

HOW TO USE THE PROGRESSIVE FARMER INDEX

This index covers all issues of The Progressive Farmer during the first six months of 1915. All matter is indexed under three general heads — Agriculture and Horticulture, Livestock and Dairy, and Miscellaneous and General. Under Agriculture and Horticulture will be found all matter pertaining to field and garden crops, fertilization and cultivation. Under Livestock and Dairy will be found listed all articles dealing with beef and dairy animals, feeds and feeding, animal diseases, and livestock in general. Under Miscellaneous and General will be found all subjects not discussed under the headings above named, such as Education, Coöperation, Legislation, Farmers' Union, Farm Women, etc., etc. The figures at the right of each subject refer to the page or pages of The Progressive Farmer on which it is discussed. File your numbers in proper order in the binder and you will have no trouble finding any article.
